Qualifying Calculations

Date	Club	Regatta	Class - fleet	Number of Boats Listed	Adjusted Number of Boats (a)	Qualifying Percentage	Number of JSA Skippers Qualifying (b)	Final Qualifying Position after Adjustment (c)	Note
Preliminary Data: Sailors should consider race results, and these qualifying calculations, as preliminary until a reasonable time has elapsed for the race committee to be notified of possible scoring errors.									
How to use these calculations: If a sailor's own finish position in any qualifying regatta with final results is equal to or less than the Final Qualifying Position after Adjustment, then the sailor may qualify for JSA Championships									
Alternate Regattas: Any sailor who qualifies for a JSA championship event is not eligible to compete in JSA Alternate events in that boat class.									
Optimist Regattas: Sailors may qualify for championships only in regattas from their home club's designated area (A, B or C) .									
JSA Rule 13.1 d) If no sailor from a JSA member club qualifies for JSA Optimist Championships, the club may enter one sailor, who must have participated in at least one qualifying event. This rule applies separately to Red, Blue and White Fleet champs.									
Calculation notes:									
See full details in Rules for JSA Events, Section 13 (in Yearbook, or on JSA website at "JSA Organization")									
a)	Total number of boats in division is adjusted to include only those that entered and registered, started in at least one race, and finished or were scored TLE in at least one race.								
b)	Adjusted number of boats is multiplied by qualifying percentage, then rounded to next whole number, to the competitor's advantage. If more than one boat ties for final qualifying position they all qualify.								
c)	Skippers who are not JSA members are excluded to give the adjusted final qualifying position.
